Overview of the Structure of the MD&A

The following management's discussion and analysis (MD&A) has been prepared by management and focuses on key statistics from the September 30, 2005 consolidated financial statements and pertains to known risks and uncertainties. To ensure that the reader is obtaining the best overall perspective, this MD&A should be read in conjunction with material contained in the Company's 2004 Annual Report and the Company's 2004 Annual Information Form. These documents are available on SEDAR at www.sedar.com. The discussions in this MD&A are based on information available at November 4, 2005. The MD&A will be presented in the following structure:

Corporate Overview provides an overview of the Company as well as a discussion of the significant developments in the third quarter of 2005.

Financial Performance Summary provides a high-level overview of the Company and its financial performance in the third quarter and year-to-date 2005. Please note that a more detailed discussion of the results is provided in latter sections of the MD&A.

Financial Statement Analysis provides a detailed discussion and analysis of the Company's financial performance for the third quarter and year-to-date 2005 and financial position as at September 30, 2005.

Liquidity and Capital Resources provides a discussion of the Company's financing needs and our plans to source these funds.

Risk Management provides a detailed look at the Company's significant risks and our management of these risks.

Accounting Estimates and Policies provides a brief discussion on the Company's critical accounting estimates and policies.

Future Objectives provides an overview of the Company's key performance targets for 2005.

Forward-looking Statements

Certain statements in this MD&A constitute "forward-looking statements". You can identify forward-looking statements by our use of the words "believe", "expect", "anticipate", "intend", "estimate", "assume", "project", and other similar terms that predict or indicate future events and trends that do not relate to historical matters. Such statements are based on Killam management's assumptions and beliefs in light of the information currently available to them. Readers are cautioned not to place undue reliance on forward-looking statements. A number of important factors could cause actual results to differ materially from those expressed in such forward-looking statements.

Non-GAAP Measures

There are measures included in this MD&A that do not have a standardized meaning under Generally Accepted Accounting Principles (GAAP) and therefore may not be comparable to similarly titled measures presented by other publicly traded companies. The Company includes these measures as a means of measuring financial performance.

- Earnings from property operations are calculated as revenue less property operating expenses.
- Funds from operations (FFO) are calculated as net income plus amortization, stock compensation, non-cash debenture interest and future income taxes.
- Same store results are rental revenues and property operating expenses for properties the Company has owned for equivalent periods in 2004 and 2005.

Corporate Overview

Killam Properties Inc. ("Killam") is a publicly traded real estate company focused on the acquisition, redevelopment and management of multi-family apartments and manufactured home communities in Eastern Canada.

Killam continued to consolidate the rental market in the third quarter of 2005 with the acquisition of 7 properties representing 310 units to bring the Company's total portfolio to 10,094 units, an increase of 65% since December 31, 2004.

Portfolio Summary

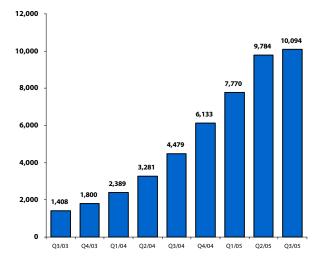

(September 30, 2005)

Unit Growth

Revenue Growth

Financial Performance Summary

As at

	Septem 200		•	mber 30, 2004	December 31, 2004
Total assets	\$412,742,376		\$182	,342,835	\$242,845,701
Mortgages payable	268,579	,734	94	,314,769	159,900,874
Shareholders' equity	95,002,185		75	,286,086	77,974,544
	3 months ended Sept 30			9 months en	ded Sept 30
	2005	2004	_	2005	2004
Total revenue	\$13,777,554	\$5,070,617	7	\$33,535,623	\$11,312,887
Net income	251,729	185,710)	297,467	59,025
Funds from operations	3,626,536	1,368,789	9	7,786,171	2,538,641
Net income per share - basic	0.0031	0.0026	5	0.0038	0.0010
- diluted	0.0030	0.0025	5	0.0037	0.0010

Total Assets increased to \$412.7 million (70%) over December 31, 2004 as a result of completing nine acquisitions during the first quarter, 17 acquisitions in the second quarter and 7 acquisitions in the third quarter of 2005. These acquisitions added 3,961 units to our rental portfolio.

Total Revenue for the third quarter of 2005 increased \$8.7 million (172%) over the same period in 2004 and 196% on a year-to-date basis driven by the unit growth during 2005.

Net Income of \$251,729 and \$297,467 for the three and nine months ended September 30, 2005 is a reflection of the Company's continued growth and focus on cost reduction.

Funds from Operations (FFO) increased by \$2.3 million over the third quarter of 2004 and \$5.2 million for the first nine months of 2005 versus 2004 as a result of the increase in the rental portfolio.

Revenues per acquisition year (In \$000s)

	2004					2005		
	Q1	Q2	Q3	Q4		Q1	Q2	Q3
Revenue from 2002 acquisitions	\$ 632	\$ 634	\$ 656	\$ 652	Ś	632	\$ 646	\$ 652
Revenue from 2003acquisitions	1,645	1,616	1,642	1,685		1,683	1,690	1,690

	\$2,708	\$3,476	\$4,962	\$7,680	Ş	8,854	\$10,796	\$13,757

The above revenue excludes corporate revenues.

Financial Statement Analysis

Consolidated Statement of Income

Revenue

	3 months ended Sept 30		9 months en	ded Sept 30
	2005	2004	2005	2004
Rental income	\$13,710,441	\$4,946,578	\$33,264,918	\$11,116,484
Interest income	21,833	110,010	154,432	168,243
Other income	45,280	14,029	116,273	28,160
	\$13,777,554	\$5,070,617	\$33,535,623	\$11,312,887

Rental revenue increased \$8.8 million or 177% and \$22.1 million or 199% compared to the third quarter and nine months ended September 30, 2004 respectively. The increase is due primarily to the completion of accretive acquisitions over the past twelve months.

The annualized rental revenue of the properties the Company owned as at September 30, 2005 is approximately \$57.4 million based on the rental and vacancy rates as at quarter end. Killam, as with all real estate rental operators, is sensitive to vacancy rates. However, Killam believes its portfolio is quite defensive given our diversification in terms of multiple locations and two asset classes. Based on our current rents, a 1% increase in vacancy rates would impact the annualized rental revenues by \$0.57 million.

The following table presents our revenues by operating segment:

	3 months ended Sept30		9 months er	nded Sept30
	2005	2004	2005	2004
Apartments	\$11,086,307	\$4,292,829	\$27,372,966	\$ 9,570,365
Manufactured Home Communities	2,671,117	668,924	6,007,903	1,576,102
Corporate	20,130	108,864	154,754	166,420
	\$13,777,554	\$5,070,617	\$33,535,623	\$11,312,887
Weighted average rent per unit				
Apartments	\$669	\$674		
Manufactured Home Communities	\$197	\$152		

Property Operating Expenses

	3 months ended Sept 30		9 months en	ded Sept 30
	2005	2004	2005	2004
Apartments Manufactured Home Communities	\$4,136,052 993,937	\$1,678,266 228,162	\$11,554,537 2,103,837	\$3,846,434 565,874
	\$5,129,989	\$1,906,428	\$13,658,374	\$4,412,308
As a Percentage of Rental Revenue	37.4%	38.5%	41.1%	39.7%

Property operating expenses include property taxes, utilities, salaries and benefits for employees at the property level, repair and maintenance, insurance, advertising and other expenses directly associated with a property. Property operating expenses were higher on a gross dollar basis due to the increase in the size of the portfolio.

Financial Statement Analysis (continued)

Property operating expenses as a percentage of rental revenue increased to 41.1% in 2005 from 39.7% in the first nine months of 2004. There are a number of factors which contributed to this increase during 2005:

- Killam has seen general increases in oil (during late 2004 and 2005 the cost of fuel rose by approximately 9.3% over 2003 prices), property taxes, water and other costs.
- Killam had not actively pursued rental increases to offset these rising operating costs as it continues to consolidate the marketplace and increases in rent will have the effect of raising the cost of acquiring other buildings within those markets. However, during the third quarter we have implemented rental increases in those markets where we have a significant presence.

By year-end 2005 Killam expects to have 26.5% of its apartment portfolio heated by natural gas with the balance heated by oil (49.5%) and by electricity (24%, which is paid directly by the tenant). Killam's strategy is to continue increasing the number of units heated by natural gas.

The property operating expense percentage is a key performance indicator for Killam as it represents the Company's ability to effectively manage its portfolio. However, the Company believes that the better analysis of operating effectiveness is the comparison of results for properties which we have owned for at least twenty four months as it takes approximately a year to stabilize these properties. A comparison of these "same store" results is presented later in this MD&A.

Mortgage and Loan Interest

Financing expenses were higher in 2005 on a gross dollar basis compared to the prior year due to the increase in the mortgage portfolio related to acquisitions. Mortgage and loan interest on a gross dollar basis is expected to continue to increase in 2005 as the Company continues to expand its portfolio. However, Killam expects to continue to finance properties at favorable rates throughout 2005. Please see further discussion in the Mortgages Payable section of the MD&A.

Killam is sensitive to interest rate changes. However, the Company manages this risk by entering into fixed rate mortgages and staggering the maturity dates of the mortgages. The reader should review the section on debt discussed later in the MD&A. An annualized 1% change in the interest rate on Killam's debt at September 30, 2005 would increase financing costs by approximately \$2.6 million per year.

Amortization Expense

Year-to-date amortization expense increased \$2.0 million compared to the third quarter of 2004 and \$4.6 million versus the first nine months of 2004. The increase in amortization is a result of the increased portfolio.

3 months ended Sept 30 9 months ended Sept 30 2005 2004 2005 2004 Total \$479,847 \$310,728 \$1,468,633 \$900,066 As a Percentage of Rental Revenue 3.5% 6.3% 4.4% 8.1%

General and Administrative Expenses

General and administrative expenses include expenses which are not specific to an individual property. These expenses include management salaries and benefits, office rent, communication costs, office equipment leases and other head office expenses. The percentage has decreased from the same periods in 2004 as there is a relatively fixed component of these expenses which continues to be spread over a greater amount of revenue as Killam continues to expand its portfolio.

Financial Statement Analysis (continued)

Provincial Large Corporation Tax (Capital Tax)

The Company is required to pay provincial capital tax in Nova Scotia and New Brunswick based on the total taxable capital invested in those provinces. Total taxable capital invested includes share capital and mortgages on properties held outside the Company's internal trusts and is not a function of the time the capital is invested. These taxes are deductible for provincial and federal income tax purposes and the tax benefit of this deduction is included in Income Tax as discussed below. The increase in provincial capital tax for the third quarter and first nine months of 2005 is a result of the Company's private placement in May 2005.

Income Tax

	3 months end	3 months ended Sept 30		ded Sept 30
	2005	2004	2005	2004
Current	\$ 57,624	\$ 37,664	\$122,376	\$ 58,412
Future	189,604	130,669	257,323	68,971
	\$247,228	\$168,333	\$379,699	\$127,383

Current income tax expense represents federal large corporation's tax. The increase over the same period of 2004 is largely a result of the Company's May 2005 private placement. In addition, the Company has booked a future income tax expense representing the future tax expense on Killam's 2005 net income at a rate of approximately 38%.

Same Store Results

In 2004 we began to analyze property results on a "same store" basis. The following table sets out the results of operations for 17 properties we have owned for equivalent periods in 2005 and 2004.

	3 months ended Sept 30		9 months en	ded Sept 30
	2005	2004	2005	2004
Rental revenues Property operating expenses	\$2,342,238 881,936	\$2,297,359 900,566	\$6,993,811 2,870,658	\$6,824,506 2,854,381
Earnings from property operations	\$1,460,302	\$1,396,793	\$4,123,153	\$3,970,125
Operating expenses as a percentage of rental revenue	37.7%	39.2%	41.0%	41.8%

Earnings from property operations increased \$63,509 and \$153,028 or 4.5% and 3.9% for the three and nine months ended September 30, 2005 compared to the prior year as a result of an increased effort to reduce costs. Rental revenues increased 2.0% and 2.5% as a result of beginning to lease units which had been undergoing renovations as well as increased rents at re-leasing. Property operating expense as a percentage of revenue for 2005 decreased even with the large increases in oil, water and property tax costs as the Company continues to focus on cost reductions.

Financial Statement Analysis (continued)

Consolidated Balance Sheet

The following is a discussion of the changes in the Company's balance sheet from the end of the last fiscal year, December 31, 2004 to the end of the third quarter, September 30, 2005.

Capital Assets

	September 30 2005	December 31 2004	% change
Net book value	\$401,468,149	\$235,199,298	71%

Capital assets increased to \$401.5 million from \$235.2 million, as a result of 33 acquisitions totaling 3,961 units in the first nine months of 2005.

The following table is a summary of the Company's acquisitions for the three and nine months ended September 2005. The acquisition value set out below excludes third party costs such as legal, environmental and other costs paid as part of the acquisition process.

Apartment Acquisitions	3 months ended Sept 30, 2005	9 months ended <u>Sept 30, 2005</u>
Value of acquisitions	\$18,449,000	\$111,683,000
Units acquired	310	1,838
Average price per unit	\$59,513	\$60,763
MHC Acquisitions		
Value of acquisitions	Nil	\$43,075,000
Units acquired	Nil	2,123
Average price per unit	Nil	\$20,290

During the third quarter Killam completed the acquisition of 310 units in Halifax, NS. During the first nine months of 2005, Killam has continued to expand its geographic reach in 2005 with the acquisition of additional MHC units in Ontario and completed its largest single acquisition to date with the acquisition of the 723 unit Maplehurst Portfolio in Halifax NS. A number of the acquisitions in 2005 are adjacent to Killam's existing buildings and MHCs which enable the Company to better control the neighborhood and provide a more consistent level of service and achieve cost savings through better utilization of resources.

Capital Improvements

In addition to property acquisitions, the Company has invested \$11.5 million in property improvements as set out below:

	Q1	Q2	Q3	Total YTD
Project improvements	\$1,281,827	\$2,912,169	\$3,300,175	\$ 7,494,171
Suite improvements	411,847	1,403,020	1,532,748	3,347,615
Parking lots	3,035	19,596	126,477	149,108
Appliances	44,808	138,104	136,611	319,523
Furniture & Fixtures	14,766	103,924	121,748	240,438
Total	\$1,756,283	\$4,576,813	\$5,217,759	\$11,550,855

Included in the project improvement numbers presented above is \$3.7 million of renovations related to the Company's Woodward Gardens re-positioning project.

Financial Statement Analysis (continued)

Deferred Financing

	September 30 2005	December 31 2004	% change
Deferred financing costs Less: accumulated amortization	\$5,121,394 (830,620)	\$1,533,939 (511,010)	234% 63%
	\$4,290,774	\$1,022,929	319%

Deferred financing costs (net of amortization) increased \$3.3 million largely as a result of the May private placement (\$2.1 million) with the remainder due to the increase in the portfolio. The costs related to mortgage assumption, application fees and legal costs are amortized over the term of the respective mortgage. CMHC insurance fees are amortized over the amortization period of the mortgage. The costs associated with the convertible debentures are amortized over the term of the debenture.

Prepaid Expenses

	September 30 2005	December 31 2004	% change
Property taxes	\$1,714,311	\$295,780	480%
Insurance	420,671	230,616	82%
Other	539,659	197,181	174%
	\$2,674,641	\$723,577	270%

The large increase in prepaids over the December 31, 2004 balance is due to the increased size of the portfolio as well as the timing of property tax payments in various provinces.

Mortgages Payable

	September 30 2005	December 31 2004	% change
Mortgages Vendor financing	\$257,980,834 10,598,900	\$154,085,874 5,815,000	67% 82%
	\$268,579,734	\$159,900,874	68%
Weighted average years to maturity	5.4	6.1	
Debt as a percentage of GBV	65.1%	66.8%	
Weighted average interest rate	5.6%	5.9%	

The Company's long-term debt consists largely of fixed-rate, long-term mortgage financing. In certain cases the Company will also utilize vendor-take-back mortgages as part of an acquisition. Mortgages are secured by a first or second charge against the individual properties and the vendor financing is secured by a general corporate guarantee. The increase in mortgages payable is due to the continued growth of the Company. Killam's September 30, 2005 weighted average interest rate remained steady at 5.6% compared to the second quarter and fell from 5.9% as at December 31, 2004. It is anticipated that Killam will continue to benefit from the low interest rate environment throughout 2005 and as a result the weighted average interest rate is expected to continue to decline. The Company's weighted average years to maturity fell from year end and September 30, 2005 as a result of the assumption of mortgages during the second and third quarter of 2005 which have a shorter term to maturity than the Company's usual financing terms.

Financial Statement Analysis (continued)

The Company continually reviews the maturity dates of its mortgages to reduce the overall interest rate risk. The following table sets out the maturity dates and average interest rates of debt by the year of maturity:

Fiscal Year	Mortgage Balance Sept 30, 2005 <i>(\$000's)</i>	Average Int. Rate %
2005	640	5.80
2006	9,402	6.09
2007	8,183	5.24
2008	42,289	6.16
2009	67,910	5.33
2010	50,090	5.23
2011	_	_
2012	3,349	6.15
2013	10,865	6.16
2014	27,765	5.99
2015	44,173	5.43
Thereafter	3,914	6.94

Convertible Debenture

	September 30 2005	December 31 2004	% change
Convertible debentures	\$40,672,574	\$Nil	%

During the second quarter of 2005 the Company completed the private placement of \$42.2 million convertible subordinated debentures. The debentures bear interest at a rate of 6.5% payable semiannually to their maturity at May 5, 2012. The debentures are convertible into common shares of the Company at a share price of \$3.10 at any time after May 2007. At the time of issuance, the fair value of the Company's obligation to make principle and interest payments was \$40.6 million and the fair value of the holder's conversion option was \$1.6 million (which is reflected in "other paid-in capital"). The effective rate of interest on the liability component has been calculated at 7.2%.

Shareholders' Equity

	September 30 2005	December 31 2004	% change
Capital stock	\$92,819,884	\$77,809,075	19%
Contributed surplus	351,656	233,984	50%
Other paid-in capital	1,601,693	_	
Retained earnings (deficit)	228,952	(68,515)	334%
	\$95,002,185	\$77,974,544	22%

During the second quarter of 2005 the Company completed the private placement of 6 million common shares for gross proceeds of \$15.3 million. Other paid-in capital represents the fair value of the holder's conversion option of the Company's May 2005 issuance of convertible subordinated dentures. The change in the contributed surplus account is as result of the expensing of stock options which have vested during 2005.

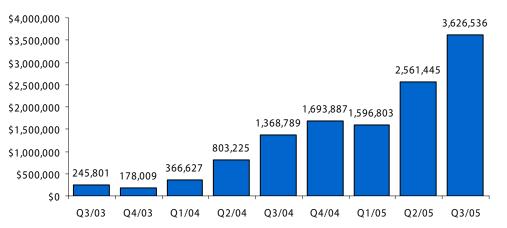

Financial Statement Analysis (continued)

Consolidated Statement of Cash Flows

Operating Activities

	3 months ended Sept 30		9 months ended Sept 30	
	2005	2004	2005	2004
Funds from operations	\$3,626,536	\$1,368,789	\$7,786,171	\$2,538,641
FFO/share	\$0.04	\$0.02	\$0.10	\$0.04

The Company's funds from operations continued to grow on a total dollar and per share basis during the third quarter of 2005 compared to the same periods in 2004 largely as a result of the expanded portfolio during late 2004 and the first half of 2005.

Funds From Operations

Financing Activities

Issuance of Common Shares

As discussed earlier in the MD&A, the Company completed the private placement of 6 million common shares in the second quarter of 2005 at a price of \$2.55 per share.

Financing of Capital Assets

During the third quarter of 2005 the financing of new acquisitions and the re-financing of existing properties totaled \$8.0 million compared to \$7.9 million during the same period of 2004. For the nine months ended September 30, 2005 new financings totaled \$84.0 million versus \$33.5 million in 2004. These amounts exclude mortgages assumed on acquisition. See the section on Mortgages Payable elsewhere in the MD&A for a further discussion of financing.

Investing Activities

As discussed earlier in the MD&A, the Company completed the acquisition of 7 properties representing 310 units during the third quarter of 2005 and 33 properties representing 3,961 units in the first nine months of 2005. The purchase of capital assets amount in the cash flow statement is shown net of the value of shares issued to complete the acquisitions and debt assumed. In addition the Company completed approximately \$5.2 million of capital improvements to its properties during the third quarter of 2005.

Liquidity and Capital Resources

The Company intends to meet its short-term liquidity requirements (defined as monthly mortgage payments of principal and interest and ongoing operating costs) through net cash flow provided by operating activities.

Killam's business plan requires an ample supply of capital resources. Capital resources are defined as mortgage debt, vendor mortgages and share capital equity. As at September 30, 2005 the Company had available \$0.8 million of cash. Subsequent to quarter end the Company has increased financing and refinanced certain properties to net an additional \$6.5 million in cash. In addition, the Company has credit facilities consisting of a \$20 million revolving secured facility and a \$20 million non-revolving term facility. The cash on hand and credit facilities provide the Company with sufficient capital to continue its acquisitions in the short term. We will continue to finance new properties at 75% of their value through new mortgages or placing second mortgages when available and the Company is constantly reviewing existing mortgages to ensure the properties are appropriately leveraged to maximize access to historically low mortgage rates.

Risk Management

Killam, like most real estate companies, is exposed to a variety of risk areas. These are described in detail in the Management's Discussion and Analysis found in Killam's 2004 Annual Report. These factors still exist at the end of this interim period and remain relatively unchanged.

Critical Accounting Estimates

The Company's accounting policies are described in Note 2 of the consolidated financial statements, found in the 2004 Annual Report. The preparation of financial statements in conformity with Canadian Generally Accepted Accounting Principles requires management to make estimates and assumptions.

Building Amortization

The key estimate that management makes is regarding the depreciation of its building assets. Since January 1, 2004 the Company has used the straight-line method of amortization in accordance with Section 1100 of the Canadian Institute of Chartered Accountants (CICA) Handbook. If management's assumptions of estimated useful life or allocation of purchase price to building assets proves incorrect, the computation of depreciation could be materially different than recorded amounts.

Property Acquisitions

Under EIC 140 the purchase price of an acquisition must be allocated to land, building and intangible assets. This allocation of the components involves substantial estimates and judgment by management. The Company frequently purchases properties requiring capital improvements. This often involves the replacement of tenants occupying buildings at the time of acquisition. Upon review of the leases and the tenants' relationships relating to the acquired buildings, the Company has established that there is little or no value associated with the above and below market value leases

Future Objectives

Killam has continued its growth during 2005. With our acquisition facilities and re-financing opportunities, Killam is well positioned to continue its aggressive growth strategy. Subsequent to quarter-end we closed 3 properties representing 211 units and have additional properties under contract which we anticipate will close by the end of 2005.

As set out in the 2004 Annual Report our goals for 2005 remain to:

- Continue to grow our portfolio through accretive acquisitions.
- Increase rental incomes from existing properties at lease rollover and renewal.
- Review existing mortgages to maximize our leverage position and ensure we are taking advantage of the continued low interest rate environment and staggering the maturity dates of our mortgages.
- Maintain our focus on utilities consumption and review opportunities for added efficiencies and cost savings going forward.

Management is confident that Killam is well positioned to continue its accretive growth and that market fundamentals remain strong.
