DID YOU KNOW?

Devices often draw power when turned off or in standby mode, known as "phantom power". Unplugging electronics when not in use can reduce energy consumption by 10%.

Shortening your showers by 1 minute can save 550 gallons of water a year!

Canadians throw away over 3 million tonnes of plastic waste every year. Only 9% is recycled while the rest ends up in our landfills. It's time to take action.

Using homemade cleaning solutions like vinegar and baking soda are not only eco-friendly but also budget-friendly!

At Killam, we prioritize sustainable practices in all areas of our business.
